I. INTRODUCTION AND BACKGROUND

A. POLICY STATEMENT

It is the policy of the Municipality of Carolina to take reasonable steps to provide meaningful access to all individuals who wish to access Municipality services regardless of their national origin or limited ability to speak, read, write, or understand English.

Individuals, who have a limited ability to read, write, speak or understand English are limited English proficient, or “LEP.” In compliance with guidance and rules issued by the U.S. Department of Transportation, and Title VI of the Civil Rights Act of 1964, the Municipality of Carolina will take reasonable steps to ensure that all persons have meaningful access to its programs, services, and information, at no additional cost.

An LEP Plan starts with an assessment to identify LEP individuals who need assistance.

Implementation includes the development of language assistance measures, staff training, notification measures to LEP individuals, and monitoring of the plan.

The Municipality of Carolina has a population of 165,040 habitants, according to the U.S. Census Bureau, 2012-2016 American Community Survey 5-Year Estimates. 98.8% of the population was Hispanic or Latino Carolina, and the 61.1% are considered white alone and only 25.6% considered themselves to race Black or African American.

In the population 5 years and over (**156,811** people), 92.3% speak only Spanish at home and 7.3% spoke English only at home and other languages are Indo-European, which constitutes 0.2%, Asian and Pacific Islander 0.1%.

1. Who Is Limited English Proficient (LEP)?

LEP individuals do not speak English as their primary language and have a limited ability to read, write, speak, or understand English.

-  Many LEP persons are in the process of learning English and may read, write, speak, and/or understand some English, but not proficiently.
-  LEP status may be context-specific – an individual may have sufficient English language skills to communicate basic information (name, address etc.) but may not have sufficient skills to communicate detailed information (e.g., medical information, eyewitness accounts, information elicited in an interrogation, etc.) in English.

2. Background and Purpose

Federal law prohibits national origin discrimination and requires federally assisted agencies to take reasonable steps to provide meaningful access to LEP individuals. Language barriers can prevent LEP individuals from receiving meaningful access to Municipality services and information.

This Limited English Proficiency (LEP) Plan serves as a broad outline of the Municipality of Carolina responsibilities as a recipient of federal financial assistance as they relate to the needs of individuals with Limited English Proficiency language skills. The plan has been prepared in accordance with, and to meet the legal obligations of, Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq.

Municipality of Carolina has developed this Limited English Proficiency Plan to help identify reasonable steps for providing language assistance to persons with Limited English Proficiency (LEP) who wish to access any Municipality service.

Given the Municipality's wide array of services and extensive federal financial assistance, this plan is not intended to govern all of the specific requirements of the programs which receive Federal funding. Rather, it demonstrates the Municipality's commitments to provide meaningful access to all individuals, regardless of their ability to speak, read, write or understand English.

Numerous Federal Agencies, including the U.S. Department of Transportation, have issued technical assistance and planning tools that are to be used as guidelines in developing comprehensive language access programs. The four-factor LEP analysis was used in preparing this plan.

This plan outlines the ways in which assistance may be provided and how to notify LEP persons that assistance is available. Further, it provides a brief overview of available LEP services and the process for complaint resolution.
